FYTO CAL-P

Calcium-Phosphorus & Vitamin Supplement for Animals

FYTO CAL-P

Powering Growth. Strengthening Life

FYTO CAL-P combines bioavailable calcium, phosphorus, vitamins, choline, and trace minerals for optimal absorption—ideal for dairy animals, calves, pregnant, lactating, working livestock, and poultry.

Composition (Per 10 ml)

Ingredient	Strength
Calcium Lactate	1500 mg
Calcium Gluconate	1000 mg
Calcium Phosphate Tribasic	700 mg
Phosphorus	468 mg
Vitamin D	2500 IU
Vitamin B1	250 mcg
Vitamin B12	100 mg
Choline Chloride	1000 mg
Iodine	50 mcg
Elemental Iron	100 mg
Selenium	1000 mg
Propylene Glycol	130 mg

Mode of Action

FYTO CAL-P provides calcium in highly bioavailable forms to enhance intestinal absorption and skeletal mineralization. Phosphorus synergizes with calcium in ATP production and bone development. Vitamin D upregulates calcium-binding proteins for improved mineral uptake. Choline functions as a lipotropic agent, aiding liver metabolism. Vitamins B1 and B12 serve as

coenzymes in energy metabolism and erythropoiesis. Iodine supports thyroid activity, while iron promotes haemoglobin synthesis. Selenium, as a cofactor of glutathione peroxidase, enhances antioxidant protection and reproductive function.

Benefits

- Supports bone development and skeletal integrity
- Improves milk production and reproductive efficiency
- Helps prevent calcium and phosphorus deficiency-related disorders
- Enhances energy metabolism and immunity
- Aids in recovery during stress, illness, or post-parturition
- Boosts growth and productivity in young and adult animals

Inclusion Recommendation

Species	Dosage
Large animals (Dairy and Beef Cattle)	50–100 ml per day
Small animals (Sheep, Goats and Calves)	20–30 ml per day
Chicks / Broilers	20 ml per 100 birds daily
Layers / Breeders	100 ml per 100 birds daily

Presentation

Available in 1L, 5L and 10 L HDPE bottles.
