

Rena-B Forte

"A kind of Animal Feed Supplement"

PRODUCT COMPOSITION (Per gm)

- Vitamin B12: 0.05 mg
- Carrier- Dextrose: QS

DOSAGE

Poultry: Administer 1 g per 1-2 liters of drinking water.

Cattle: Mix 10-25 g per animal with the daily feed.

Or as directed by the Veterinarian.

STORAGE CONDITIONS

Store in a cool and dry place, protected from heat and light, away from reach of children.

SHELF LIFE

Minimum 2 years from the date of manufacturing, when stored as per the directions.

Side Effects (If Any)

Generally safe in livestock. Overdosage may cause:

- Mild to moderate loose droppings or diarrhea due to temporary digestive disturbance.
- Reduced feed or water intake caused by metabolic imbalance from excessive supplementation.
- Temporary restlessness or stress-related behavior, especially in poultry.
- Short-term digestive imbalance that may interfere with normal nutrient absorption.
- Transient reduction in growth or production performance until dosage is corrected.

TECHNICAL DATA SHEET

> PRODUCT DESCRIPTION

Rena-B Forte is a powerful Vitamin B12-based performance booster for poultry and livestock, designed to unlock better energy utilization, faster growth, and improved productivity. It supports healthy blood formation, enhances feed efficiency, and helps animals recover quickly from stress, ensuring sustained vitality and consistent performance across all production stages.

> INDICATIONS

Rena-B Forte is used in poultry and livestock for:

- Prevention and correction of Vitamin B12 deficiency
- Poor growth rate and reduced body weight gain
- Low feed intake and poor feed conversion ratio (FCR)
- Stress due to vaccination, transportation, heat, or disease challenge
- Weakness, anemia, and reduced productivity during peak growth or production stages
