

FYTO VM

Supports Immunity & Flock Performance

Liquid Multivitamin & Mineral Feed Supplement for Poultry

Key Performance Benefits

- ✓ Accelerates Growth Rate
- ✓ Improves Feed Conversion Ratio (FCR)
- ✓ Enhances Egg Production
- ✓ Boosts Immunity
- ✓ Improves Hatchability
- ✓ Reduces Deficiency Disorders

Overview

FYTO VM is a balanced liquid nutritional supplement specially formulated for poultry. It contains essential vitamins and micronutrients that help support healthy growth, improved feed efficiency, better egg production, stronger immunity, and overall flock performance. It is ideal for breeders, broilers, and layers during routine management, stress periods, vaccination, disease recovery, and peak production stages.

Composition (Per 1000 ml)

- Vitamin D3 – 75,000 IU
- Vitamin B2 Pure – 500 mg
- Vitamin K3 (MSB) – 350 mg
- Vitamin B1 Mono – 1250 mg
- Vitamin B6 – 625 mg
- Vitamin B12 Pure – 5.3 mg
- Niacinamide – 1400 mg
- Folic Acid – 62.5 mg
- Biotin Pure – 2.5 mg
- Vitamin E – 10,000 mg
- Vitamin C – 1000 mg

Mode of Action

- FYTO VM delivers a concentrated blend of essential vitamins and micronutrients in liquid form, allowing rapid absorption through drinking water and quick availability to birds. It helps correct nutritional deficiencies, especially during periods of rapid growth, production stress, vaccination, disease challenge, heat stress, or reduced feed intake.
- The B-complex vitamins (B1, B2, B6, B12, niacinamide, folic acid, and biotin) play a vital role in carbohydrate, protein, and fat metabolism, helping convert feed nutrients into usable energy. This improves appetite, supports body weight gain, enhances feed conversion efficiency, and maintains nervous system and muscle function.
- Vitamin D3 supports calcium and phosphorus metabolism, promoting strong bone development, skeletal strength, and proper eggshell formation. It is particularly beneficial for growing birds and layers with high mineral demand.
- Vitamin E and Vitamin C act as powerful antioxidants that help reduce oxidative stress caused by heat, disease, vaccination, transport, and environmental challenges. These vitamins protect body cells, improve vitality, and support faster recovery.
- Vitamin K3 contributes to normal blood clotting mechanisms and helps maintain bird health during stress or recovery conditions.
- The combined action of these nutrients strengthens immune response, improves resilience to infections, enhances reproductive performance, supports hatchability, and sustains high production performance in breeders, broilers, and layers. Because it is administered through water, FYTO VM ensures uniform intake across the flock, even when feed consumption is reduced.

Benefits

- Promotes faster and healthier growth
- Improves feed conversion ratio (FCR)
- Enhances egg production and hatchability
- Improves eggshell strength and reduces shell defects
- Boosts immunity and disease resistance
- Helps birds recover quickly after vaccination or heat stress
- Reduces weakness, leg problems, and skeletal disorders
- Supports breeder fertility and productivity
- Useful during transport, seasonal stress, and disease challenge

Dosage & Administration

- Breeders: 2 ml per liter of drinking water
- Broilers: 1 ml per liter of drinking water
- Layers: 1 ml per liter of drinking water
- Mycotoxicity / Stress Conditions: Double the above dose

Presentation

Available in 500 ml and 1 L HDPE bottles

At Horus International Pvt. Ltd., we are committed to enhancing animal health, productivity, and overall well-being through advanced nutritional and healthcare solutions. Our Animal Health & Nutrition Division partners closely with farmers, veterinarians, and feed manufacturers across India and international markets, delivering scientifically validated products that support performance optimization, immune strength, and sustainable production in poultry, livestock, and aquaculture.

Backed by a robust research-driven approach and global collaborations, we integrate internationally proven formulations with region-specific technologies to address the dynamic needs of the poultry, dairy, and aquaculture industries. Our diverse portfolio spans feed additives, probiotics, veterinary formulations, and biosecurity solutions—each developed with a strong focus on quality, efficacy, and safety.

Guided by our core principles of Integrity, Innovation, and Impact, Rigel Global Pvt. Ltd. strives to strengthen the food value chain while empowering partners with dependable products and expert technical support. We believe that healthy animals are the foundation of a healthy world, and every solution we deliver reflects this enduring commitment.
